

**Exporting to NIFTI:** Select studies for export in the dataset browser. Click down arrow next to “Export to DICOM”

Click “Export to NIFTI”.

Files will be saved in the “Home” Folder, subfolder “NIFTI export”, in each users unique user account.

The files are now ready to be copied to a user’s flash drive.

**Exporting to DICOM:** Select studies for export in the dataset browser. Click “Export to DICOM”. Click “Export to DICOM”. Files will be saved in the “Home” Folder, subfolder “DICOM export”, in each users unique user account.

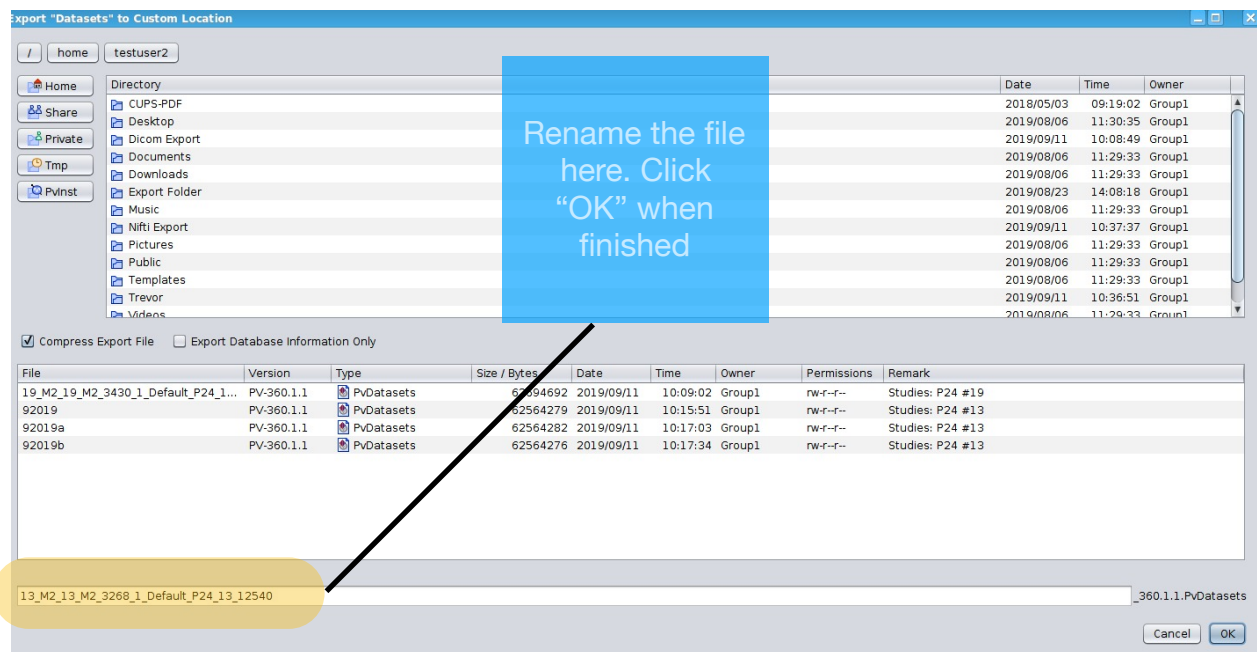

The files are now ready to be copied to a user’s flash drive.

Exporting to a ZIP File: Select studies for export in the dataset browser. Click down arrow next to “Export to DICOM”.

Click “Export to File”. Rename the file with a unique study-specific title in the bottom line and of the new window.

Files will be saved in the “Home” Folder, subfolder “Export Folder”, in each users unique user account.

Then, Go to the “Export Folder” subfolder, choose the files you want to convert to a ZIP File. Right click, choose “Compress” in the pop-window, and then choose “As ZIP archive”.

After this, all files are ready to be copied to their respective sub folders onto the users flash drive
